Scholars who are looking for publication in SSCI, E-SCI, SCI-E journals should be alert before submitting papers to journals of web of science. This attention is for the young researchers as Web of Science has removed some of the journals from the indexing. these journals are done in four categories: SSCI, SCIE, ESCI, AHCI. As per the journal performance or publication content its a decision taken by the indexing platform to un indexed those journals. So get a complete list of journals below under each category with links to the site. One more important thing that people have to maintain is that some of the publishers take advantage to start a bulk publication suddenly. So before they start doing this ABCD Index portal requests researchers, scholars, reviewers, professors, and scientists to always check this list before submission.
